- 30 Notes

Dear shareholder, Dear reader,

2020 will be long remembered. The Covid-19 pandemic brought challenges and changes to the world of a magnitude that was impossible to foresee. As per the publication date of this report the pandemic is still taking a huge toll on economies and people's lives worldwide and has fundamentally changed long established certainties and priorities.

Despite the turmoil that Covid-19 has created in our markets and in our business, we remained focused on our priorities. This enabled us to secure the business continuity of our customers, the health and safety of our people, and - at the same time - offset the impact of the pandemic on our financial objectives.

As a result of all the efforts undertaken we improved profitability, reinforced the balance sheet and enhanced the strategic position of our businesses. Underlying EBIT for the fiscal year 2020 increased by 13% to € 272 million at a margin on sales of 7.2%, ahead of what we had set ourselves as a target. Driven by an improved margin performance and stringent working capital management, our healthy cash generation significantly strengthened the balance sheet. Net debt on underlying EBITDA decreased from 2.09 at the close of 2019 to 1.26 at the end of 2020.

We are very pleased with these results. They are a reflection of what we are capable of when we focus and deliver on our priorities despite adverse external factors, however challenging those may be.

Moving forward, our ambitions reach higher. The Board of Directors and the Bekaert Group Executive have recently established the company's strategy for the next five years with the ambition to transform the company's business portfolio toward higher value creation. Organic growth in core markets will be supported by extending our capabilities in the areas of innovation, digital and sustainability and complemented by selective acquisitions and new partnerships.

For 2021, barring unexpected events, we project consolidated sales to reach at least € 4 billion and intend to improve our underlying EBIT-margin by 40-60 bps over the previous year.

Based upon the financial performance of 2020 and the confidence in the set direction, the Board has decided to propose, to the General Meeting of Shareholders in May of 2021, a gross dividend of € 1.00 per share, in line with the company's dividend policy.

The progress achieved in a very demanding year is evidence of the commitment, energy and irrepressible spirit of our employees. We would like to thank them as well as our customers, partners and shareholders for their continued trust and support.

OSWALD SCHMID
Chief Executive Officer

JÜRGEN TINGGREN
Chairman of
the Board of Directors

# COMPANY PERFORMANCE

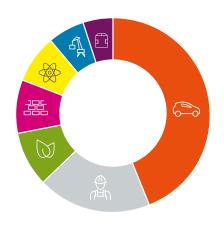

#### **GLOBAL PRESENCE**

Bekaert is a truly global company. We are present in all regions where our customers are active, so that we can respond as effectively as possible to their needs. Our wide geographical coverage enables us to identify and respond swiftly to new trends and opportunities.

Our unmatched products and solutions are used across a wide range of industries. Bekaert develops sustainable materials for future mobility. Ever stronger and thinner tire cords enable lightweight tire design. Ultra-thin metal fibers are a core material of sensor technologies. We develop innovative steel and synthetic mooring solutions for floating offshore wind turbines and our a-magnetic armoring wire protects submarine power cables against corrosion and energy losses. Our high-tech solutions for realizing vertical cities include A-cords for elevators, ultra-thin metal fibers to manufacture scratch-free smart glazing, Dramix® steel fibers for concrete reinforcement and Murfor® Compact masonry reinforcement. Based on our ultra-thin metal fiber technologies we develop the core elements of carbon-free hydrogenfueled heating systems and hydrogen power stations.

Our ambition is to create sustainable value for all our stakeholders: customers and other business partners, employees, shareholders, and the broader communities where we are active.

#### **SEGMENT PERFORMANCE IN 2020**

#### **Rubber reinforcement**

Bekaert's Rubber Reinforcement business has been significantly affected by the impact of the Covid-19 pandemic in the first half of the year, but reported a strong and fast rebound in the second half (sales up +28% from the first half). In the fourth quarter of 2020, sales volumes surged +7% higher than the same quarter last year, driven by very strong demand from tire markets in Asia and EMEA and recovering demand for hose reinforcement wire products.

The business unit reported a sales decrease of -17.3% for the full year, compared to 2019. This stemmed from lower volumes (-11.5%), unfavorable currency movements (-1.9%), and passed-on wire rod price changes and other price-mix effects (-3.9%).

The business unit implemented extensive measures to lower the cost structure in order to partly offset the severe impact of the Covid-19 pandemic on demand from tire markets in the first half of 2020. The benefits of those efforts delivered their full potential during the rebound in the second half, which resulted in a strong H2 underlying EBIT margin of 12.6%, far exceeding previous reporting periods.

The segment reported an underlying EBIT of € 144 million for the full year or 8.8% margin on sales, slightly above last year. Reported EBIT was € 136 million with a margin on sales of 8.3%. The one-off elements (€ -8 million) included restructuring costs, impairment losses and increased environmental provisions. The underlying EBITDA margin was 15.1%, up 0.3 ppt from last year.

Capital expenditure (PP&E) amounted to  $\in$  37 million and included investments in all continents, particularly in Asia and in Central and Eastern Europe.

#### Steel wire solutions

Bekaert's Steel Wire Solutions business, significantly affected by the impact of the Covid-19 pandemic in the second quarter of 2020, saw a turning point early in the third quarter and delivered robust organic sales growth in the last quarter (+10% compared to Q4 last year). This organic growth, driven by increased sales in EMEA, China and Latin America was, however, largely offset by adverse currency movements.

The business unit reported a sales decrease of -7.9% for the full year, compared to 2019. This stemmed from lower volumes (-3.4%) and unfavorable currency movements (-4.9%). The year-on-year effect of passed-on wire rod price changes and other price-mix effects was about neutral (+0.4%). Overall, demand in most sectors and regions remained below pre-Covid levels until the end of 2020. However, Bekaert's agile response to customer needs, global access to raw materials, and effective safety measures in the plants, enabled the business unit to keep the operations running and to secure delivery to customers worldwide. This resulted in positive customer appreciation and increased market share.

Steel Wire Solutions delivered a robust underlying EBIT result of € 96 million and strong underlying EBIT margin on sales of 7.0%, doubling the margin of last year. Reported EBIT was € 88 million with a margin on sales of 6.4%. The one-off elements (€ -8 million) mainly related to restructuring costs. The strong margin increase was the result of an improved business mix and footprint optimization (reduced impact of lower margin activities), stringent cost control, and the effectiveness of Covid-19 mitigation actions. Underlying EBITDA improved to a double-digit margin of 10.9%.

Capital expenditure (PP&E) amounted to € 21 million and mainly included investments in Central Europe, China, Chile and Colombia.

#### Specialty businesses

The business unit Specialty Businesses reported a sales decrease of -5.9% for the full year 2020, compared to 2019. This stemmed from lower volumes (-8.7%) and adverse currency effects (-1.4%), partly tempered by positive mix effects (+4.1%).

- » Building Products reported an organic sales decline of -6.7% due to the impact of the pandemic on demand in construction markets, but further strengthened the innovation driven business mix.
- » Fiber Technologies saw an organic sales decline of -5.2% due to weak demand in automotive, aerospace and aviation applications, which was partly compensated by strong growth in filtration solutions, particularly in Asia. Sawing wire sales integrated within the Fiber Technologies platform since December 2020 were limited and in line with last year.
- » Combustion Technologies reported flat sales, year-on-year.

Specialty Businesses delivered an underlying EBIT result of € 45 million, -13% below last year and reaching an underlying EBIT margin on sales of 11.4% (versus 12.2% last year). The reduction primarily resulted from inventory write-offs and other adjustments in Combustion Technologies (€ -5 million), a lower result in Fiber Technologies due to weaker demand for highvalue adding products, and higher loss generation in (diamond) sawing wire versus last year. The profit contribution of Building Products remained strong. Reported EBIT was € 36 million with a margin on sales of 9.2%, both exceeding last year's performance. The one-off elements in 2020 (€ -9 million) were mainly due to restructuring programs in (diamond) Sawing Wire and Combustion Technologies, implemented in China in December 2020. The respective business mix and footprint adjustments will positively influence the uEBIT performance as of the beginning of 2021. The underlying EBITDA margin reached 15.5%, slightly below the margin of last year.

Capital expenditure (PP&E) amounted to € 29 million and mainly included investments in Building Products (Czech Republic and India) and to a lesser extent in Fiber and Combustion Technologies.

#### **Bridon-Bekaert Ropes Group**

Bridon-Bekaert Ropes Group (BBRG) recorded a sales decline of -13% compared to last year, all of which was driven by lower volumes. Part of the volume decrease was a result of BBRG's strategy to reduce its presence in lower margin rope applications. The A-Cords (advanced cords) business saw decreased sales in automotive markets and solid demand from elevator and timing belt markets.

BBRG accelerated the implementation of the profit restoration program for the ropes activities and further boosted profitability with a stronger business mix and significant cost savings and Covid-19 mitigation actions. The A-Cords activities continued to deliver a solid margin performance.

The business unit delivered an underlying EBIT of  $\in$  34 million at a margin of 7.9% on sales, more than tripling the margin of the previous year. Underlying EBITDA reached a strong margin of 15.1%, compared with 9.0% in 2019. As anticipated, BBRG's sales and margins trended lower in the second half of the year, due to weaker business conditions in the Americas and less project business and seasonality effects in the second half of the year. Reported EBIT was  $\in$  24 million and included  $\in$  -10 million in one-offs, mainly due to impairments related to the planned plant closure in Pointe-Claire, Canada, and restructuring programs in EMEA. The benefits from these restructuring programs are expected to start to flow through from 2021 onwards.

BBRG invested € 16 million in PP&E, mainly in ropes plants in the UK and the US and in the Belgian A-Cords plant.

#### FINANCIAL REVIEW

Bekaert's underlying EBIT reached € 272 million in 2020, reflecting a margin of 7.2% and an increase of € 30 million or +13% compared with last year, despite a -13% sales decline. The agile response to the impact of Covid-19, the structural cost improvement actions, and significant business mix improvements more than offset the volume and cost impact of the health crisis.

Where the underlying EBIT bridge showed a negative year-on-year transition in the first half (€ -34 million), it turned highly positive in the second half (an increase of € +64 million or +56% compared with H2 2019, reaching € 181 million in underlying EBIT and reflecting a margin of 9.0%). The strong benefits from business mix improvements, the continued mitigation actions, and positive, non-cash inventory valuation effects from increased raw materials prices at year-end, contributed to the strong profitability improvement in the second half of 2020.

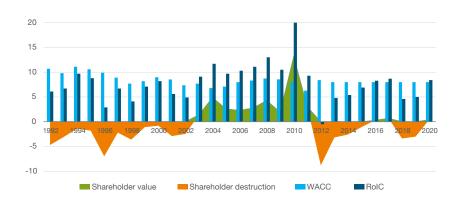

Bekaert achieved consolidated sales of € 3.8 billion in 2020, well below last year (-12.7%) due to the heavy impact of the Covid-19 pandemic in the first half of 2020. The organic sales decline (-9.7%) was driven by lower volumes (-8.3%) and passed-on wire rod price and other price-mix effects for the full year (-1.4%). The currency movements were -3.0% negative. Combined sales totaled € 4.4 billion for the year, down -13.5% from 2019. The solid organic sales growth of Bekaert's joint ventures in Brazil (+6.8%) was more than offset by the strong devaluation (-33.4%) of the Brazilian real, resulting in a top-line decline of -18.0%.

The one-off items amounted to € -16 million (€ -87 million in 2019) and mainly included expenses and impairments related to footprint adjustments and other restructuring programs, largely offset by the gain on sale of land and building in Belgium and the related reversal of environmental provisions. Including the one-off items, EBIT was € 257 million, representing an EBIT margin on sales of 6.8% (versus € 155 million or 3.6% in 2019). Underlying EBITDA was € 479 million (12.7% margin) compared with € 468 million (10.8%) and EBITDA reached € 473 million, or a margin on sales of 12.5% (versus 9.3%). Net debt of € 604 million, down from € 977 million at the close of 2019, resulting in net debt on underlying EBITDA of 1.26, significantly down from 2.09 last year.

#### **DIVIDENDS**

#### Policy on profit appropriation

It is the policy of the Board of Directors to propose a profit appropriation to the General Meeting of Shareholders which, insofar as the profit permits, provides a stable or growing dividend while maintaining an adequate level of cash flow in the company for investment and self-financing in order to support growth. In practice, this means that the company seeks to maintain a pay-out ratio of around 40% of the result for the period attributable to equity holders of Bekaert over the longer term.

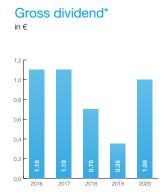

The Board of Directors will propose to the Annual General Meeting of Shareholders of 12 May 2021, a gross dividend of € 1.00, in line with the company's pay-out policy.

#### **Profit appropriation**

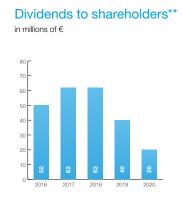

The General Meeting of Shareholders of 12 May 2021 approved the distribution of a gross dividend of € 1.00 per share relative to the performance of 2020.

# **ALTERNATIVE PERFORMANCE MEASURES**

#### definitions and reasons for use

| Capital employed (CE)                      | Working capital + net intangible assets + net goodwill + net property, plant and equipment + net RoU Property, plant and equipment. The weighted average CE is weighted by the number of periods that an entity has contributed to the consolidated result.                               | Capital employed consists of the main balance sheet items that operating management can actively and effectively control to optimize its financial performance, and serves as the denominator of ROCE.   |
|--|---|--|
| Capital ratio<br>(financial auton-<br>omy) | Equity relative to total assets.  | This ratio provides a measure of the extent to which the Group is equity-financed.   |
| Current ratio                              | Current assets to Current liabilities.  | This ratio provides a measure for the liquidity of the company. It measures whether a company has enough resources to meet it short-term obligations.  |
| Combined figures                           | Sum of consolidated companies + 100% of joint ventures and associates after elimination of intercompany transactions (if any). Examples: sales, capital expenditure, number of employees.   | In addition to Consolidated figures, which only comprise controlled companies, combined figures provide useful insights of the actual size and performance of the Group including its joint ventures and associates.   |
| EBIT                                       | Operating result (earnings before interest and taxation).   | EBIT consists of the main income statement items that operating management can actively and effectively control to optimize its profitability, and a.o. serves as the numerator of ROCE and EBIT interest coverage.  |
| EBIT – underlying                          | EBIT before operating income and expenses that are related to restructuring programs, impairment losses, business combinations, business disposals, environmental provisions or other events and transactions that have a material one-off effect that is not inherent to the business.   | EBIT – underlying is presented to enhance the reader's understanding of the operating profitability before one-off items, as it provides a better basis for comparison and extrapolation.  |
| EBITDA                                     | Operating result (EBIT) + depreciation, amortization and impairment of assets + negative goodwill.  | EBITDA provides a measure of operating profitability before non-cash effects of past investment decisions and working capital assets.  |
| EBITDA –<br>underlying                     | EBITDA before operating income and expenses that are related to restructuring programs, impairment losses, business combinations, business disposals, environmental provisions or other events and transactions that have a material one-off effect that is not inherent to the business. | EBITDA – underlying is presented to enhance the reader's understanding of the operating profitability before one-off items and non-cash effects of past investment decisions and working capital assets, as it provides a better basis for comparison and extrapolation. |
| EBIT interest coverage                     | Operating result (EBIT) divided by net interest expense.  | The EBIT interest coverage provides a measure of the Group's capability to service its debt through its operating profitability.   |
| Free Cash Flow<br>(FCF)                    | Cash flows from Operating activities - capex + dividends received - net interest paid   | Free cash flow (FCF) represents the cash available for the company to repay financial debt or pay dividends to investors.  |
| Gearing                                    | Net debt relative to equity.  | Gearing is a measure of the Group's financial leverage and shows the extent to which its operations are funded by lenders versus shareholders.   |
| Margin on sales                            | EBIT, EBIT-underlying, EBITDA and EBITDA-underlying on sales.   | Each of these ratios provides a specific measure of operating profitability expressed as a percentage on sales.  |
| Net capitalization                         | Net debt + equity.  | Net capitalization is a measure of the Group's total financing from both lenders and shareholders.   |
| Net debt                                   | Interest-bearing debt net of current loans, non-current financial receivables and cash guarantees, short-term deposits, cash and cash equivalents.  | Net debt is a measure of debt after deduction of financial assets that can be deployed to repay the gross debt.  |
| Net debt on<br>EBITDA                      | Net debt divided by EBITDA.   | Net debt on EBITDA provides a measure of the Group's capability (expressed as a number of years) to repay its debt through its operating profitability.  |
| Operating free cash flow                   | Cash flows from Operating activities - capex (net of disposals of fixed assets)   | Operating cash flow measures the net cash required to support the business (working capital and capital expenditure needs).  |
| Return on capital employed (ROCE)          | Operating result (EBIT) relative to the weighted average capital employed.  | ROCE provides a measure of the Group's operating profitability relative to the capital resources deployed and managed by operating management.   |
| Return on equity<br>(ROE)                  | Result for the period relative to average equity.   | ROE provides a measure of the Group's net profitability relative to the capital resources provided by its shareholders.  |
| WACC                                       | Cost of debt and cost of equity weighted with a target gearing of 50% (net debt/equity structure) after tax.  | WACC is used to assess an investor's return on an investment in the Company.   |
| Working capital (operating)                | Inventories + trade receivables + bills of exchange received + advanced paid - trade payables - advances received - remuneration and social security payables - employment-related taxes.   | Working capital includes all current assets and liabilities that operating management can actively and effectively control to optimize its financial performance. It represents the current component of capital employed.   |
