

Durafence: fencing solutions for transportation infrastructure

Long service-life in any atmosphere

Benefits

- ① High rigidity
- ② Easy and fast to install
- ③ Extra-long service-life

Durafence fencing solutions protect transportation infrastructures from any interference. Whether it is to keep people and animals off the perimeter, or to keep the assets of the infrastructure intact, our solutions offer optimal security.

The high quality and unique design of the welded panels not only improves the impact resistance of the fence, it also makes them hard to climb. By adding different coating combinations, Durafence fencing solutions maintain their longevity in any atmosphere; from high-emissions in dense urban areas, to saline spray in marine environments.

To enable a quick and efficient installation, Durafence fencing solutions are available in different sized panels complete with matching posts, fittings, fixtures and different types of gates.

Why choose Bekaert?

The wire drawing and coating specialist

Bekaert has the flexibility, the historical background, and the technical skills to create any steel wire no matter what shape, composition or mechanical characteristic. We have been producing continuously for over 135 years and are available in over 120 countries.

Experienced provider of fencing solutions

Our experience in producing fences for a wide range of purposes enables us to provide you with the best possible solution and technical support. We have the unique ability to control the entire production process of our fences, from wire rod to finished product.

Your strategic partner

Our global presence means that your products are manufactured to strict international standards of safety and quality. Our local support means that we are at your service at all times.

What is the best fencing solution for me?

Whether it's securing a highway, a railway, a subway yard or international airport, Durafence is a high quality fencing solution which can be customized to match your safety requirements.

Fortinet type fences

Wire diameter (mm)	Wire spacing (W*H in mm)	Height (mm)	Length (mm)
2.50	50*100	1200-2030	25000

posts			
Model	Diameter (mm)	Thickness (mm)	Height (mm)
Intermediate	50.8	1.25	2000-3000
Braces	38.1	1.25	2000-2500

3D type fences

Wire diameter: 5mm							
Panel height (mm)	Panel width (mm)	Mesh (mm)	Number of reinforcements per panel	Post types (mm)			
				Square post 60*60*1.5	Square post 60*60*2.0	I post 70*40*1.5	Super I post 100*54.4*1.5
1030	2505	190*50 / 200*50	2	*		*	
1230			2	*		*	
1530			3	*		*	
1730			3	*		*	
2030			4	*	*	*	*
2410			4	*	*		*

3D M type fences

Wire diameter: 4mm							
Panel height (mm)	Panel width (mm)	Mesh (mm)	Number of reinforcements per panel	Post types (mm)			
				Square post 60*60*1.5	Square post 60*60*2.0	I post 70*40*1.5	Super I post 100*54.4*1.5
1030	2505	95*50 / 100*50	2	*		*	
1230			2	*		*	
1530			3	*		*	
1730			3	*		*	
2030			4	*	*	*	*
2410			4	*	*	*	*

Other dimensions available upon request. Final specifications dependent on fence design.
