

NEW

Why choose Bekaert?

1

The marine expert

Bekaert offers a wide range of flat and round wires specifically designed for marine applications such as armouring wires, ropes, cables, etc. Bekaert marine wires feature superior corrosion resistance, excellent fatigue properties and high tensile strengths.

2

The coating expert

Thanks to our wide range of standard and adapted coatings Bekaert can offer its customers products of the highest quality and performance.

3

Innovation

Bekaert maintains its technological leadership through a process of continuous innovation. Our technology centres in Europe and Asia consist of over 600 international experts who actively search for new or improved products in close cooperation with our customers, giving them competitive advantages in their markets.

4

Global presence

Bekaert is active in more than 120 countries and employs over 23000 people worldwide. This makes us the largest independent wire manufacturer in the world, selling wire to almost all countries.

Bekaert marine antifouling wire

The unique combination of superb marine corrosion resistance, effective antifouling and high tensile strength

What can we offer you?

A copper alloy coating on a steel core wire

Features

Copper alloy coating:

- Superb marine corrosion resistance
- Excellent antifouling functionality

Steel core:

- Unlike copper wires, steel wires allow high tensile strengths making the wire suitable for a wide range of marine applications.

Product range

Round wire size

- Minimum 1.85 mm
- Maximum: 3.2 mm
- Other diameters on demand

Tensile strength

- Minimum 600N/mm²
- Maximum: 700N/mm²
- Higher tensile strength available on demand (upto 1500 N/mm² for the standard diameter range)

Quality

All Bekaert plants that produce marine antifouling wire are ISO 9001 certified.

Modifications reserved. All details describe our products in general form only. For ordering and design only use official specifications and documents.
