OUR WORLD OF WIRE

Bekaert is a world market and technology leader in steel wire transformation and coating technologies. To be the preferred supplier of steel wire products and solutions, we consistently deliver superior value to our customers worldwide. Bekaert (Euronext Brussels: BEKB) was established in 1880 and is a global company with approximately 30,000 employees worldwide.

WWW.BEKAERT.COM
WHAT WE DO

For over 135 years, we have been transforming steel wire and applying unique coating technologies. Every day, we continuously improve both the bulk and the surface properties of our steel wire products.

We draw steel wire in different strengths and diameters, even as thin as ultrafine fibers of one micron. We bundle the wires into cords, ropes and strands, profile them into complex shapes, weave or knit them into fabric, or process them into an end product. Depending on your application, coatings are applied which reduce friction, improve corrosion resistance, or enhance adhesion to other materials.

HOW WE WORK

Integrity, trust and resilience - these values are the essence of our corporate culture. They bring our 30 000 employees worldwide together in one team, and they drive all of our business relationships.

We believe in lasting relationships with our customers, suppliers and other stakeholders, and we are committed to delivering long-term value to each of them.

So if you believe in collaboration as the driver of a sustainable, successful partnership, then we can be better together.
YOUR VOICE / OUR VISION

Consistent with our better together aspiration, we relentlessly pursue to be the preferred supplier for our steel wire products and solutions, by continuously delivering superior value to our customers around the world.

WE CREATE WITH YOU, FOR YOU

Your business drives our business. So for us, it is very important to engage with you to co-develop the best solutions for you at the lowest total cost. We believe that collaborating with you will help us innovate faster to create products and solutions that are of unique value to you.
OUR SERVICE HAS NO BORDERS

You can rely on local service and support, backed by our global manufacturing presence and technological support. Wherever you are in the world, however specific your needs, we can assist you.

YOUR PARTNER IN QUALITY

When one of our products reaches you, its quality is assured. You will receive access to extensive testing facilities and can rely on our global standards of excellence. Meeting your specifications, and exceeding your expectations, is what makes us your partner in quality.
ACTIVE IN YOUR INDUSTRY

Whatever industry you are active in, whatever steel wire solution you are looking for, you can put your trust in Bekaert. The expertise we gain by developing solutions for one sector often form the basis of innovations in others. That is how we can leverage synergies across the markets we serve to benefit our customers.

If it drives, ascends, hoists, filters, reinforces, fences or fastens, there’s a good chance Bekaert is inside.

AUTOMOTIVE

Consistently developing steel wire products that meet the highest quality standards has made us a strong partner of the automotive industry. Customers engage and co-create with us in our common quest for solutions that address ecological, safety and performance trends.

Our products include: tire cord, bead wire, wires for windscreen wiper arms and blades, wires and cables for window systems, heating cord, suspension and clutch spring wire, wheel weights, steering column profiles, engine valve collets, steel filament yarns for car seat heating, exhaust filter media, and more.
CONSTRUCTION

Developing durable and easy-to-install solutions with a focus on better materials, greater safety, stronger constructions and lower cost is the ambition we share with the building sector. Our solid reputation is built on proven technologies and smart designs.

Our products include: Dramix® steel fibers and prestressed wires and strands for concrete reinforcement, Murfor® masonry reinforcement, elevator ropes and cord, welded mesh, gabions, security and residential fences, gas burners, cable wire for bridges, road reinforcement mesh, and more.

ENERGY & UTILITIES

When your business involves onshore or offshore oil extraction, gas mining, power transmission, solar energy or telecommunications, Bekaert can contribute to sustainable, safe, high-performance and cost-efficient operations.

Our products include: wires and ropes for oil and gas exploration, steel wires and strands for overhead power lines, telecom armoring wire, shaped wire for flexible pipes and wedge filters, sawing wire, hose coupling solutions, offshore and onshore cable armoring wire, and many more.
EQUIPMENT

We share the expertise and passion to facilitate an equitable contribution in machine design and equipment maintenance. At Bekaert, we build our own core machinery, so we know exactly what it takes to make high-performance, safe, and durable equipment.

Our products include: ropes for cranes and straddle carriers, hydraulic hose wire, fine cord for synchronous belts, brush wire, steel cord fabric for industrial transportation belts, steel wire for retainer rings, and more.

CONSUMER GOODS

Consumer goods require increasingly higher standards for quality, ecology and comfort. The demand for more advanced steel wire products evolves accordingly. Often unknown, but always there - our solutions are a part of the products we all use every day.

Our products include: champagne cork wire, steel wire for kitchen utensils, spring wire for bedding and seating, underwire, staple wire, music wire, bookbinding and stitching wire, wire for medical instruments, spoke wire, fish hook wire, ink cartridge filter media, and many more.
AGRICULTURE

Fencing, guiding, and tensioning solutions combine our product and service offering to the agricultural sector, while our heavy-duty steel ropes are used in fishery and forestry. The story of Bekaert started in 1880 with barbed wire and has continuously grown from these roots.

Our products include: fruit tensioning and protection wire, vineyard wire, auger wire for the livestock feed industry, Motto® barbed wire, CercaSoluciones®, Gaucho® fencing, cage wire, fishing and forestry ropes, and more.

BASIC MATERIALS

Many Bekaert products are used in exploring and processing raw materials, from coal and metals, to pulp and paper, to chemicals and gas. Whether you are active in the mining industry, in recycling or in filtration, we are committed to serving your needs.

Our products include: shovel and hoisting ropes for mining operations, Fleximat® fabric for transportation belts, hot gas filtration media, heat-resistant separation materials, steel fiber products to discharge static electricity, pulp baling wire, and more.
