Duron Vineyard wire

For a stronger,
longer-lasting trellis system

Benefits

- 1 Extend the service-life of your trellis
- 2 Reduced maintenance cost
- 3 Lower total cost/acre

Why choose Bekaert?

Your global partner

Bekaert has been producing steel wire solutions for over 130 years, for customers in over 120 countries. As a global company that places high value on quality, we make sure that our products meet international standards.

Our production sites are strategically located around the globe and we have a wide network of local sales representatives who are at your service at all times.

Supporting vines for decades

Bekaert has been producing vineyard wires for over 30 years. These decades of experience have given us insights into the challenges of the business. We combine this knowledge with our extensive expertise in steel wire drawing and coating technologies to provide solutions for these challenges.

The perfect vineyard wire is easy to install, requires little maintenance and has a long service-life. Duron vineyard wire combines the right features to achieve just that. The high strength, low elongation wire results in various advantages such as more usable wire length with the same final breaking load and a higher resilience that lasts many harvests.

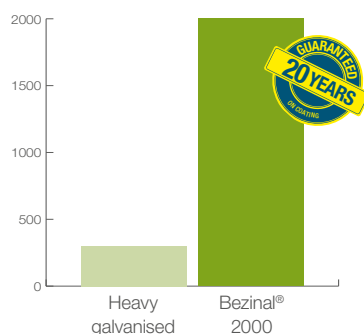

The advanced, zinc-aluminum coating Bezinal® 2000 exceeds the performance of heavy galvanized wires in both quality and lifetime. As a result, Duron vineyard wires stay tight and corrosion-free during the entire lifespan of the vine.

Duron vineyard wire versus heavy galvanized wires

When the wire is appropriately used, the Bezinal® 2000 coating on Duron vineyard wire provides a limited guarantee of 20 years. The coating exhibits remarkable corrosion resistant properties by combining passivation and sacrificial protection. As a result, wires coated with Bezinal® 2000 last up to eight times longer than heavy galvanized.

(Hours salt spray before 5% DBR)

Discover the benefits of Duron vineyard wire

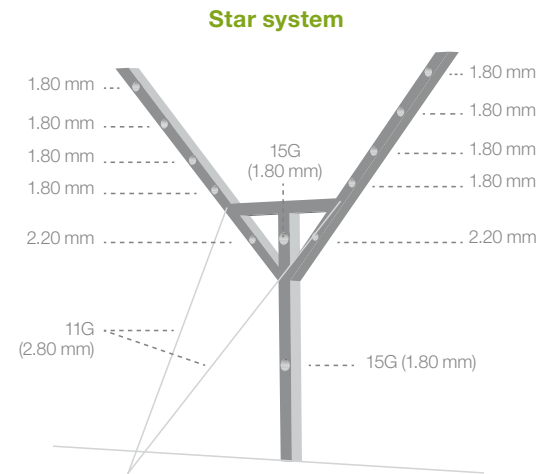

- **Lifetime** - 8 times more corrosion resistant than heavy galvanized
- **Maintenance** - no re-tensioning needed re-tensioned over the years
- **Meter/kg** - at least 120% more usable wire length with the same final breaking load
- **Total cost/acre** - Lower total cost of ownership

Product specifications

Diameter mm	Length per coil m	Coil weight per roll kg
1.80	1600	32
2.00	1600	39
2.20	1600	48
2.50	1000	39
2.80	800	39
3.20	800	51

Packaging

Duron vineyard wire is delivered per running meter, on user-friendly coils.
