

Durafence: high security fencing solutions

Long-lasting, maximum security

Benefits

- 1 Maximum security
- 2 Long service-life
- 3 Rapid installation

Durafence high security fencing solutions are tested in the harshest conditions and against maximum force to ensure they provide the ultimate security enclosures for your perimeter. In addition to defining its boundary, our fencing solutions allow visual distinction between public and private property.

Durafence fencing solutions consist of welded panels and heavy chain-link which are available in different heights, crash rated posts and security gates. The unique modular design of our solutions prevents climbing or any willfully damage caused by cutting tools or other instruments.

To increase their longevity, our fencing solutions are available with different coating solutions including zinc, polyester and Bezinal® 2000, our own brand of zinc aluminum alloy.

Why choose Bekaert?

The wire drawing and coating specialist

Bekaert has the flexibility, the historical background, and the technical skills to create any steel wire no matter what shape, composition or mechanical characteristic. We have been producing continuously for over 135 years and are available in over 120 countries.

Experienced provider of fencing solutions

Our experience in producing fences for a wide range of purposes enables us to provide you with the best possible solution and technical support. We have the unique ability to control the entire production process of our fences, from wire rod to finished product.

Your strategic partner

Our global presence means that your products are manufactured to strict international standards of safety and quality. Our local support means that we are at your service at all times.

What is the best fencing solution for me?

Durafence high security fencing solutions safeguard a wide range of high security facilities including, but not limited to borders, nuclear power stations, prisons, airports, industrial parks, banks and defense facilities.

Security fences

Wire diameter: 4mm				
Panel height (mm)	Panel width (mm)	Mesh (mm)	Post types (mm)	
			Square post	Super I post
1800 to 4000	2138	76.2*12.7	60*60*2.0	100*54.4*1.5

3D type fences

Wire diameter: 5mm						
Panel height (mm)	Panel width (mm)	Mesh (mm)	Post types (mm)			
			Square post 60*60*1.5	Square post 60*60*2.0	I post 70*40*1.5	Super I post 100*54.4*1.5
1030	2505	190*50 / 200*50	*		*	
1230			*		*	
1530			*		*	
1730			*		*	
2030			*	*	*	*
2410				*		*

Heavy chain link

Fence height (mm)	Fence Length (mm)	Opening (mm)	Wire diameter (mm)	Wire tensile strength min. (kg/mm ²)	Coating weight Zinc/Bezinal® min. (g/m ²)	Mesh weight (kg/m ²)
1200-2500	12500	50*50	4/5	50	240	4.8

Other dimensions available upon request. Final specifications dependent on fence design.
