

## Why choose Bekaert?

### The wire drawing and coating specialist

Bekaert has the knowledge, technology and historical background to deliver the product that meets your specific demands. From shaped or round, to bright or galvanized wire, by working closely with you, we can create any steel wire no matter the shape, composition or mechanical properties. Whatever your application, together we will create a lasting solution that answers your needs.

### Your strategic partner

Our global experience means that your products are manufactured to strict international standards of safety and quality. Our local presence means that we are at your service at all times. In the event of a question, a trained professional is available to quickly answer your call.

### Our expertise, your success

Bekaert has experience in producing quality products for applications in nearly every sector. Because of the wide variety of industries we work in, we can incorporate innovations across our platforms to discover new products for you. Strength through synergy, that's what we can offer you.

## Bekaert Southern Wire

**Your regional solution for a complete range of steel wire, ropes and fencing applications**

### What can we offer you?

Bekaert Southern Wire offers you a wide product line of high-quality galvanized and specialty steel wires and ropes for different applications ranging from baling wire to ropes to fencing applications. Our wires and ropes have excellent corrosion protection and feature highly adaptable properties, which can be customized to meet your specific requirements.

### Your regional solution

Bekaert Southern Wire (a joint venture between Bekaert and Southern Steel Berhad) is an important wire drawing and rope company in the Southeast Asian market. With plants in Malaysia (Shah Alam, Ipoh) and Indonesia (Karawang), and technical and commercial links to Bekaert plants across the world, we can be at your service at all times.

### Certified quality

To guarantee the uncompromised quality of our products, our wires and ropes conform to several international standards and have several quality certificates: ISO9001:2008QMS; ISO14001:2004EMS; OHSAS:18001:2007; ASTM A471-1998; Lloyd's Register; American Petroleum Institution, and more.

### Reliable solutions for demanding industries

Our presence in industries such as energy and utilities, construction, basic materials or equipment, can be seen in our broad range of wires, ropes and cable solutions. Whether your concerns are in offshore applications, gas mining, power transmission or hoisting, Bekaert Southern Wire can be your single source for a complete range of reliable products.

- **Power transmission conductors (ACSR)**

Galvanized high-carbon steel wires and strands for ACSR cores with high strength and good conductivity.

- **Cable armoring wire**

Superior quality cable armoring wire for performance under harsh field conditions, it ensures smooth processing with minimal entanglement.

- **Paper and pulp baling wire**

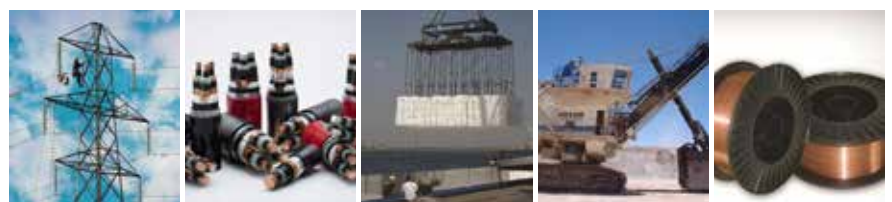

With uniform tensile strength and elongation properties, Bekaert baling wire provides perfect strapping and allows for knot formation around the bales.

- **Ropes**

Our wire rope has excellent tensile strength and ductility at the wire level, creating perfect fatigue properties for hoisting, traction and carrier ropes. Our logging ropes feature the trusted Tiger logo.

- **Welding wire**

Depending on your industry or application, we offer copper clad M.I.G. and copper clad submerged arc wires.

Bekaert ([www.bekaert.com](http://www.bekaert.com)) is a world market and technology leader in steel wire transformation and coatings.

Bekaert (Euronext Brussels: BEKB) was established in 1880 and is a global company headquartered in Belgium, employing more than 25 000 people worldwide. Serving customers in 120 countries, Bekaert pursues sustainable profitable growth in all its activities.

## Fencing and gabion solutions

In addition to a wide range of galvanized or PVC coated wire for fences and gabions, Bekaert Southern Wire can also deliver complete and customizable fencing products with excellent corrosion resistance and specific tensile strengths.

### • Galvanized wire

Our range comes in regular and heavily hot-dipped galvanized wire.

### • PVC coated wire

Ideal for applications like gabions, slope protection nets, chain link fences, agricultural wire and more.

### • Fencing applications

Our fencing range includes modern fence panels such as fixed knot, hinge joint, low and high tensile barbed wire. The Bezinal® 2000 zinc aluminum coating comes in different colors and improves the lifetime and look of your fences.

## Automotive solutions

Bekaert Southern Wire also proves its presence in the automotive industry by offering the following products:

### • Bead wire for tires

Consistently quality wire in different shapes and strengths with excellent adhesive properties.

### • Hard-drawn mechanical spring wire

Produced to widely accepted standards and can be used for all conventional springs.

### • Wire for automotive springs

A wide range of hard drawn and patented spring wire, up to a diameter of 0.25mm, offering good formability thanks to consistent mechanical properties.

## Solutions for consumer products

Bekaert Southern Wire delivers high quality, attractive and comfortable options in its solutions for consumer products.

### • Bedding and seating wire

Depending on the spring and application, the wire can be either phosphate or borax coated, with or without oil coating.

### • High carbon spring wire

Available in a wide range of diameters, tensile strengths, and compositions for a broad range of applications.

### • Staple wire

Galvanized wire with steady tensile strength, low friction resistance and good processability.
