

Petruzzelli Theatre

TYPE OF APPLICATION: STUCANET

LOCATION: Bari - Italy

DATE OF CONSTRUCTION: 2008

ENGINEER/ARCHITECT: Arch. Luciana Anselmi

CONTRACTOR/PLASTERER: Bari Municipality

Finished vault of the theatre

Description of the project

Petruzzelli Theatre built in 1896 in Bari (Apulia - Italy) on the night of October 27th 1991 was completely destroyed by a big malicious fire. For the reconstruction of the cupole the company EDB under supervision of Architec Luciana in charge of the plastering has decided to use Bekaert Stucanet panels as support for the special acoustic plaster. 2250 STUCANET panels have been installed on a wooden structure
