

Auditorium University Amsterdam

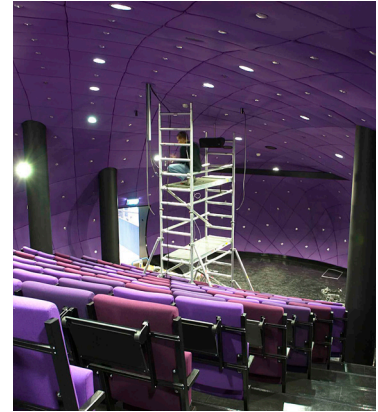

TYPE OF APPLICATION: background of wooden frames

LOCATION: Amsterdam (The Netherlands)

DATE OF CONSTRUCTION: 2005

ENGINEER/ARCHITECT: Jeanne Dekkers (Delft Rene)

CONTRACTOR/PLASTERER: Groot Afbouw (Volendam)

Description of the project

The exceptional shape of this construction was only possible thanks to the unlimited creative possibilities of Stucanet. The contractor also valued the ease of use and the perfect anchorage that it has to offer to the plaster. Nothing similar is existing in the Netherlands for the moment.
